I had not seen it. Thank you.

I didn't see any email response to my comments about the climate emphasis in the wind EO, though Munashe told me he was accepting my suggestions, FYI.

Approved:

"The project is under review by our environmental regulators, who are aware of the concerns and are continuing to receive public comment. They are examining carefully the effect on North Carolina communities. At the same time we must recognize the much-needed jobs and energy this project could provide to rural areas of our state."
